PELEE CRASHES FORTH FIRE CARRIBBEAN LASHED TO FURY OUR CONSUL'S BODY SAVED

Fort de France, Martinique, May 26.—Destruction is again threatened by Mont Pelee, the volcano having resumed an activity even greater than that exhibited when St. Pierre was wiped out of existence. For twenty-four hours the volcano has been in constant eruption and explosions have been frequent. All in Fort de France are filled with panic. Last night was one of terror and alarm here. The earth seemed to have lost its foundations. Up through the crater of Mont Pelee poured a storm of death. The culmination came at an early hour this morning when there occurred an explosion so terrible that walls in this city were shaken down and the inhabitants fled to the open country. At this time nothing definite is known of conditions farther to the north. Smoke fills the air, darkening the sky. Ashes are falling steadily. When the heavens are filled with lightning, as frequently happens, it can be seen that Mont Pelee has not ceased to throw out a great column of lava and stones. There has been a perfect calm in the air, yet the waters of the Caribbean are lashed to a fury, indicating that the same forces that cause the volcano to labor are working tremendous changes at the bottom of the sea. Words are inadequate to describe the actual conditions. Disaster is expected at any moment, and in the harbor every ship has steam up and is ready to slip cable and speed away. Beset by imminent and terrible danger, a party of officers and men from the Cincinnati and Potomac went ashore at St. Pierre yesterday and brought away the body of Thomas D. Prentiss, the American Consul. Advised to forsake their burden and save themselves, the men who were carrying the body refused to do so. On they stumbled through an atmosphere each second growing darker and more stifling. Their ears were deafened by the crashes that came from Mont Pelee. In the roadstead the British cruiser Indefatigable was putting to sea, sounding her siren, which most of the time was silenced by the great noise of the mountain. With steam up the Potomac stood ready to run as soon as the rescue party could get from shore and on board. To the general din it added its note of alarm. Finally the brave men were forced to rest their burden at the water's edge, while they made all speed to the Potomac. They were barely in time.

HAWAIIAN FARM VALUES

Washington, May 26.—The Census Bureau has issued a report on agriculture in Hawaii which shows that the 227 farms enumerated there in 1900 were valued at \$60,209,954, of which 6 per cent was in buildings. The value of farm implements and machinery was \$11,484,890, and live stock \$2,570,142. Total value of farm property which is the aggregate of the last two figures and the value of farms, shows an average agricultural investment per inhabitant of \$181. The total value of farm products in 1899 was \$22,040,741, an average of \$143 for each inhabitant of the islands.

ANOTHER DISASTER REPORTED RUSH TO STREETS IN PRAYER ALMIGHTY PUNISHES WICKED

Fort de France, May 26.—A cloud of cinders issued from Mont Pelee amid awful detonations today. It is estimated that 20,000 persons rushed out into the street of the town shrieking and praying. It is reported that a tidal wave destroyed a portion of the village of Le Carbet. The Suchet will go at once to St. Pierre. Many of the inhabitants of Fort de France have embarked on available vessels in the harbor and in tend to seek refuge on the island of Guadeloupe or to the southward. St. Thomas, May 26.—Consternation was caused here this morning by the appearance of a cloud streaked with flame, surmounted by a cap resembling burnished silver. This cloud hung over the city and finally drifted away, flames playing through it as though it was living fire. It is feared that another great disaster has occurred south of here. Defonations greater than those of May 8 were heard this morning here as well as in Guadeloupe and Antigua. Great Explosion Reported. St. Thomas, D. W. I., May 26.—Another great explosion of Mont Pelee is reported from Fort de France as having occurred this morning. It is regarded as possible that the volcano has erupted in worse form than before. Conditions Worse and Worse. St. Kitts, B. W. I., May 26.—As the full extent of the disaster worked in St. Vincent by the explosion of La Soufriere becomes known the horror is increased. Conditions there grow worse day by day, notwithstanding the fact that the volcano apparently has returned to its state of passivity. The island is famine-stricken, although supplies have been sent in from all of the British West India Islands. Disease has appeared, and there are not enough physicians present to give the required relief. Life in St. Vincent is made almost impossible by the sickening stench that gives the entire island a resemblance to neglected shambles. Everywhere noxious vapors are wafted by the trade winds that seem to be not in the least tempered by the surrounding waters. Many Bodies Not Buried. These conditions are bad enough in the southern part of the island about Kingstown, but they are multiplied a thousand times in the Carib country about La Soufriere and at Georgetown.

Under the direction of the Government internment has been given to 1800 bodies, but other hundreds lie decomposing under the tropical sun. The official estimate of the victims of the volcano has now been increased to 2200. That means that at least 400 bodies are unburied. But that is the least of the trouble. Thus far no effort has been made to do more than care for the living and bury the dead. All about are dead cattle polluting the atmosphere, which already is heavily laden with disease. In one of the ravines near Morne Grou the bodies of eighty-seven Carib Indians were found piled together. Not far away are the carcasses of hundreds of cattle. It has now been ordered that these menaces to life be removed. Quicklime is being used to destroy the bodies. ALMIGHTY'S TERRIBLE PUNISHMENT. New York, May 18.—Two steamers, the Etona and the Horace, arrived here this morning and were the first vessels reaching New York from the Windward Islands since the destruction of St. Pierre by the eruption of Mont Pelee. The Horace brings information that the destruction of St. Pierre is looked upon by the superstitious islanders as a judgment of God. "While in St. Lucia," said an officer of the vessel, "I heard several residents telling me another that they believed the destruction of St. Pierre was a terrible punishment sent by the Almighty on account of the wickedness of the city. I don't know about divine retribution, but I do know that St. Pierre was a pretty bad place." One of the officers of the Horace described the storm of ashes through which they had passed as being like a severe snowstorm, with the thermometer at 100 degrees. "It hurt our eyes and choked us, and the air was so filled with fine dust that we could not see a mile ahead."

City of St. Pierre and Shipping in Harbor Wiped Out by the Volcanic Outbreak of Mount Pelee

CRICKET FOR FRIDAY

Captain C. Percy Morse of the cricket club is at present making arrangements for the match with the Scotchmen which is to be played on the Makiki grounds on Friday afternoon at 2 o'clock. The World's team will be picked on the field from the following names selected by Captain Morse: Ahlo, Stanley Beardmore, L. Blackman, Faraday, Hatfield, Harvey, Herbert, Von der Hyde, R. A. Jordan, A. T. Miles, Mayall, Irish, C. P. Morse, Plianaia, Prince Cupid, Brett, H. E. Picker, Norton, Capt. Kelley, Waldron and Harrison. As there are such a number of cricketers available it is possible that the number playing on each team may be extended to fifteen a side in order to give as many men as possible a chance to play. From all indications, it seems as if the game is going to be a very interesting one, as there are some very good players on both sides.

JAPANESE IN HIDING

Four Japanese were arrested last night on the charge of assault and battery on Kaillik, the keeper of the Kaialani cemetery, who was attacked Monday afternoon last and had a miraculous escape from being fatally injured. A number of the Japanese concerned in the attack having heard of the probability of their arrest, made tracks for other parts and cannot be found. However, they will be located in time as they are well known. The case of the four men came up for trial in the Police Court this forenoon but was continued until tomorrow forenoon. Attorney Robinson appears for the defense.

WARDES SAIL AWAY

Frederick Warde and his company were given a most enthusiastic farewell upon the occasion of their departure in the Sierra for San Francisco yesterday afternoon. There were a large number of friends and brother Elks on the wharf and steamer to say good-bye to Mr. and Mrs. Warde, the Misses Warde and the members of the company were all decorated with leis and presented with numerous bouquets of flowers. The band played several selections on the steamer and then went aboard the tug Fearless, where there was collected a large number of the friends of the departing tragedian and his company. The steamer got away shortly after 5 o'clock and the tug accompanied the steamer nearly out to the bell buoy, the band playing nearly all the way. As the tug was about to return to port three cheers were given for Mr. Warde and his company. This was returned by the Warde company with three cheers for Honolulu.

DOG CATCHERS ABROAD.

The dog cart is about on the streets again and people who have valuable animals may take the warning. Twenty-six dogs were gathered in by Officer Apana and others this forenoon and this afternoon the cart is out again. An old native was at the police station early this forenoon with a tax receipt which he had just obtained. He had seen the dog carters take his dog but he was powerless to interfere because he knew he had not been to the tax office for tags.

CHOLERA IN PHILIPPINES.

Manila, May 21.—The cholera record to date follows: Manila, 1198 cases and 346 deaths; provinces, 3592 cases and 3274 deaths.

KIMURA MURDER CASE

CONTINUED TO AUGUST TERM BY JUDGE ROBINSON

Old Land Case Still Lives--Hall Trial Progress--Evidence in Kidwell vs. Godfrey Par-tition Suit.

Judge Robertson this morning continued the Kimura murder case to the August term. There was practically no time left for the trial this term, and besides it will be necessary to make investigations at the scene of the alleged murder at Waiwala.

Messrs. Robinson and Farley, attorneys for defendant, made the motion for continuance. The J. W. Hall trial was on all morning. It is stipulated by the attorneys on both sides that the case of Mary E. Aldrich and others vs. Priscilla E. Hassinger and others upon the result, titur from the Supreme Court may take place before Judge Humphreys on Saturday next at 10 o'clock. This is the old Beretania street land case that was tried before the revolution by Justice S. B. Pele but never decided by him. Since revival under the new regime it has passed through many phases in the Circuit and Supreme Courts.

SENATOR CARTER HOME

Senator George R. Carter returned from Washington, whither he had been called by President Roosevelt, in the Ventura. Seen at the gateway by a Bulletin reporter, Mr. Carter stated that he had nothing new to relate about any possible Hawaiian legislation. As to an appropriation for the fire claims, he thought the only chance was to have it tacked upon the Sundry Civil Service bill. He had not received any telegrams from Washington about public matters before leaving San Francisco.

Physical Director Fred. Yung of the Y. M. C. A. is at present getting up a party of young men to take a tramp on Hawaii.

The party is to leave this city in the Kinau on Tuesday, June 17, for Hilo. From Hilo the party will tramp to the volcano and probably spend a few days in this vicinity before returning to this city. The trip is expected to take just a week.

ONLY ONE SAVED AND 200 ARE KILLED

Coal Creek, Tenn., May 19.—Between 175 and 225 men and boys met instant death at the Fraterville coal mine, located two miles west of this city, at 7:30 o'clock this morning, because of a gas explosion. Of the large number of men and boys who went to work this morning only one is alive, and he is so badly injured that he cannot live. This man is William Morgan, an aged Englishman, who was a roadman in the mine. He was blown out of the entrance by the force of the explosion. One hundred and seventy-five miners were checked in for work this morning by the mine boss. In addition to these there were boys who acted as helpers and drivers and roadmen and others to the number of perhaps fifty.

SABATE COMMITTED

The case against Jean B. Sabate, charged with petit larceny, before Judge Wilcox yesterday afternoon, resulted in Sabate being held to the grand jury in the sum of \$250 bail. Sabate admitted on the stand, under the clever cross-examination of Attorney Thomas I. Dillon, that he had taken various articles from the home of E. S. Gill. Judge Wilcox, in holding the defendant, said that no jury could do otherwise than find Sabate guilty on the evidence presented, but as he had no jurisdiction in the case he could only commit him to the grand jury.

MARIA STRUCK TWO.

Joe Maria, a Porto Rican, was arrested yesterday by Officer Nawas on the charge of assault and battery on Philip Pfeifer, the man in charge of the Harrison stables in Kewalo. It seems that the fellow was drunk and in going into the corral, where he had no business, he met a boy who was working around. He proceeded to knock him down, and when Pfeifer, the boss of the stables, remonstrated, he struck him on the side of the head. When the police arrived on the scene it was necessary to chase Maria for quite a distance before he could be apprehended. He was found guilty and fined \$10 and costs in the Police Court today.

Gentlemen, refresh yourselves at the First National Saloon.

GOVERNOR AT SCHOOL

CONFIDENCE IN WOMAN PRINCIPALS CONFIRMED

Industrial Features in Kailani and Kaahumanu Schools Are Well Maintained--Good Work Commended.

Acting Governor H. E. Cooper, in company with Miss Rose Davison, district school agent, yesterday paid a visit of inspection to Kailani and Kaahumanu schools. Mrs. Nina L. D. Frasier is principal of Kailani, and Miss Allie M. Felker of Kaahumanu school. There is an attendance of between five and six hundred pupils at each of these schools. After telling a Bulletin reporter of what he had observed at these institutions, Mr. Cooper said: "It is rather a new idea to have the principalship of large schools given to women. There have been objections to the innovation, yet I cannot see but that the women are handling these schools on up-to-date principles. In fact, I was very much pleased with the work done at both schools."

At Kailani school first visited the Acting Governor made an inspection of each room and the work done in it. "I found that very fine progress was being made in all departments," Mr. Cooper said this morning. "The building is kept in excellent condition by the teachers and children." After visiting the different rooms, all the children were assembled in the hall upstairs and sang several songs. Mr. Cooper made remarks, complimenting the teachers on the work being done. He was present at the school about two hours. In answer to a question, Mr. Cooper spoke highly of the industrial features introduced in Kailani school. A cottage has been fitted up as a model home with furniture manufactured by the children. Nature study is conducted in the cultivation of flowers and plants, the children making water color drawings of the growths. The children also make their own reading charts by means of large rubber type and are taught drawing by the teachers.

A large number of young people of the islands returned from the Coast today for their vacation. Among them were: Miss Juanita Beckley, Master George Beckley, Miss Genevieve Dowsett, Miss Edna Gunn, Miss Macfarlane, Miss Violet Makoce, Melville Monarrat, Ernest Parker, J. Parker, Miss Marian Roth, Miss Ella Wright, Miss Leslie Wight, Frank Wight and Sam Wight.

HORSES TRAINING WELL

There was quite a bit of activity on the track in Kapiolani park this morning, many horses being worked out during the forenoon. Oak Grove and Steamplough were worked together for the mile making it in 2:36, 2:32 and 2:25. Way Boy went out and stepped a mile in 2:15 1/2 with exertion. He also made it in 2:25, Hogan driving, and in 2:18. Waldo J. jogged a mile in 2:30, 2:32 and 2:20. Edna G. made her mile in 2:18, 2:22 and 2:30. Prince Cupid and Smith took a preliminary turn for the gentlemen's driving race, Prince Cupid working out Violin and Smith, Abeline. The mile was made in 2:25, 2:22 and 2:20.

DESERTED IROQUOIS.

Ten dollars reward has been offered for the apprehension and delivery aboard the Iroquois of Peter Murphy, a quartermaster of the third-class who disappeared from the vessel a few days ago. The reward will hold good for about four days longer. Murphy is five feet nine inches in height, has blue gray eyes and is very well built. The order is signed by Lieut. Rodman, commander of the Iroquois.

MANSLAUGHTER CHARGED

Daniel Yowell has been arrested on the charge of manslaughter in the first degree. The warrant was sworn out this forenoon and signed by Judge Wilcox. It will be remembered that Yowell is the man who accidentally fired the shot that finally resulted in the death of David Kanewannui, the young editor of the Kuokoa. The complaint was sworn to by Sara Rose Kanewannui, mother of the deceased. The case will come up for preliminary hearing in the Police Court tomorrow forenoon. The defendant will undoubtedly waive examination and his case will then go to the grand jury.

SMOKER AND BALL

There is a feeling among the local Brits that the day of the coronation of King Edward VII ought to be celebrated by a smoking concert as well as by a ball. It is known that there are among the Brits here a large number who do not dance and who would not enjoy a ball. The smoking concert would be for the benefit of these people especially. The smoker would be held at two places not too far distant from each other so that any one who wanted to take in both events could do so. The matter is at present being talked over and there is a possibility that the plan may be adopted.
